Texas State University Libraries Grants Inventory Staff Talent & Tech Skills Form

The libraries are conducting an environmental scan of staff interests, skills and talents for future grant purposes.   Below is a staff form inventory survey to fill out which will help with Texas State University Libraries grant initiatives. The idea is to make other staff aware of your skills and talents for other areas of our libraries so staff may find partnerships and synergies for creatively working together.   Please include key themes and needs including your own innovative ideas for the next level of ARL library possibilities.

Please fill in the information below.
